New Academy Plastic Kits Heading To Our Shores

Model Rectifier Corporation is pleased to announce the release and impending arrival of two new plastic model kits from Academy.

The *F-15K Slam Eagle* is a revised tooling kit of one of the most detailed and highly prized aircraft in 1/48 scale. It features new underwing weaponry, including AIM-SX, AIM-120C, JDAM, SLAM-ER and more, plus the GE F110 engine exhaust nozzles. The kit can be accurately finished with the precision of its very large *Cartograph* decal set.

New for 2009, the 1/72 scale *M977 8x8 Cargo Truck* is a welcome edition to Academy's ground vehicle sets. This kit contains 100% new tooling with full cab and cargo area detail, and an accurately reproduced chassis and drive train. Complete with Loading Crane, this This Heavy Expanded Mobil Tactical Truck (HEMTT) will be a welcome addition and enhancement to builders and collectors in this smaller scale.
